Truck Scale – Receiving (LIVE DUMP LOADS)

Used for weighing items that are dumped from a roll-off, Luger or End Dump style truck where you will weight the entire truck to get gross and tare weights. This can be used to weigh single item loads or multiple items that are dumped sequentially.

From the Main Menu, go to Scale Management → Scale Hopper → Click **New Dealer Scale Ticket**

Additional Information (2)- If applicable

The screenshot shows the '21st Century Recycling - New Scale Ticket (280)' window. It features a form for entering vehicle and customer information, a list of delivery types, and a sidebar with action buttons. Three yellow callout boxes are present: '1' points to the 'Customer' dropdown menu, '2' points to the 'Driver' and 'Other ID' text input fields, and '3' points to the 'LIVE - Dump Loads' button in the sidebar.

Truck Scale – Receiving (LIVE DUMP LOADS)

LIVE DUMP LOADS

Taking the Heavy Weight

1 → Live Picture

2 → Gross (lbs) 78000

3 → Save - Sequential Weight Ticket

Taking the Light Weight- Open the ticket from the Scale Hopper

4 → Tare (lbs) 30000

5 → FINISHED - Print Weight Ticket

Adding more Items to the same ticket - Click on the "Next Item" tab and add the inventory description (click on "Next Item" button or Inventory drop down or hot button) → Click **Add Next Item & Return to Hopper**, this will return the ticket to the scale hopper.

NOTE: The Tare weight from the first item item became the gross for the second. This can be done multiple times as long as the customer comes back to the scale each time to weight the next item.
